VERNICRYL CC3

SOLVENT STONE VARNISH

GENERAL FEATURES

VERNICRYL CC3 is a transparent acrylic stone varnish, for interior and exterior use, with a new composition, which is based on a special acrylic resin, which offers great penetration and adhesion.

It remains clear, without yellowing or peeling and it has got great resistance to abrasion and shock. It protects painted surfaces from the effects of weather, air pollution and solar radiation, thanks to the special UV filters it contains.

It emphasizes the natural color of the surface and stone water and it protects from humidity and stain absorption.

It is suitable for all kinds of stone or slabs whether they are natural or artificial such as Karystos, Pelion etc. bricks, marble, tiles, mosaics, plaster, brick, etc. as well as stamped concrete.

TECHNICAL FEATURES

<i>Look</i>	Transparent
<i>Specific weight</i>	0,92 kg/lt.
<i>Attenuation</i>	Ready to use
<i>Temperature Application</i>	5°C - 35°C
<i>Consumption</i>	8 - 10 m ² /lt. depending on the absorbency of the substrate
<i>Drying</i>	At touch 45 -60 min, depending on atmospheric conditions
<i>Recoatibility</i>	3 - 4 hours
<i>Storage</i>	Keep in a cool and dry place
